## COVER LETTER

I am seeking employment opportunities in various IT roles such as programmer, tester, designer, system administrator, and information security specialist, game developer. I am open to any IT-related positions, preferably technical ones. While my work experience is limited, I am eager to learn and grow in areas that interest me. Therefore, I am considering internships and positions with training as my top priority. I am self-motivated and prepared for diligent and repetitive work. Currently, I have basic knowledge in Python development, Java development (Android Studio), web development (HTML, CSS, JavaScript), GameDev (Unity, Godot Engine), 3D modeling in Blender 3D, and intermediate skills in Adobe Photoshop, GIMP, and InkScape. I also have experience in hardware components of information systems, Windows and Linux system administration, and working with LANs. As I am currently in Italy, I am seeking remote or office-based opportunities within the EU, with salaries in Euro/Dollar preferred. Russian-speaking teams are a priority for me. I am highly motivated and enthusiastic about contributing my skills and passion to a dynamic IT team. I am confident that my dedication to continuous learning and my adaptable nature make me a valuable asset to any IT team.
