PROFESSIONAL SUMMARY

I'm a beginer app developer with strong Python skills and basic experience with the Kivy framework. I also have some familiarity with PyQt and MySQL basics for database management. My background includes exposure to Android Studio and a bit of knowledge about Flutter. Additionally, I'm proficient in Adobe Photoshop and GIMP for graphic design tasks, with basic skills in Inkscape for vector graphics. I'm eager to actively learn and grow in the field of app development, striving for excellence and continuous improvement in my professional skills. I'm enthusiastic about exploring new technologies and methodologies to enhance my app development skills. With a strong commitment to learning and adaptability, I'm eager to contribute to innovative projects and collaborate with a dynamic team of developers.
